Our Service to You

Have you assessed your company's most pressing strategic and operational risks?

Quintillion's risk assessment service takes the guess work out of Enterprise Risk Management. Our approach helps clients identify and prioritize key risks, quantify the potential business impacts of those risks, and accurately understand the costs associated with remediating risk. Our service also provides state of the art visual analytics that enhance the quality of risk-based decision making, and delivers an executable roadmap for how to strategically address risk.

Value Proposition

- Identification and prioritization of key enterprise risks
- Methodology and visual analytics that enhance the quality of executive decision making about how best to address risks

Deliverables

- Defined Requirements
- Customized Risk Assessment
- Risk Heat Map Diagrams
- Risk Analysis
- Gap Remediation Strategic Recommendations

"A deep understanding of the risk landscape accompanied by PROVEN EXPERIENCE AND A STRATEGIC MINDSET is why Quintillion Consulting should be at the top of your list."

- Manager, Fortune 50 Retail Corporation
